**National Headache Awareness Week! June 5th—11th**

- *The prevalence of chronic headaches in the United States is roughly 1 out of every six people*
- *In the United States in the year of 2001 alone, there were 9,876,000 visits to doctors by patients seeking some sort of relief for their headache pains.*

There are multiple types of treatments for multiple types of headaches. Speak with the doctor about identifying yours and gain knowledge of simple homecare techniques to allow your body to heal itself. When home care isn't enough come into Pivotal Wellness for some of the most advanced treatments for headache care including cold laser, massage therapy, neural physiological reeducation and more!
